Before

1 month max correction

1 Year, still 50% better than the Before

Spa Services

We are pleased to announce the expansion of our Aesthetic Spa Services starting September 2, 2008. Our 30% lactic acid peel is a cosmetic chemical peel option that refreshes your complexion without the irritation, discomfort and recovery time associated with deeper peels. Lactic acid is a gentle alpha hydroxy acid found in milk, an ideal option for some fine lines, hyperpigmentation and improvement in skin tone and texture.

For optimal results, schedule a series of 5 treatments (1 treatment every other week) at a

special introductory price of \$495

You will also receive a complimentary 6th treatment and a Col-oreScience® make-up application (The entire package is a \$725 value.)

Facial waxing and eyebrow shaping are also available to compliment your new look!

Call for your appointment with Kim, our licensed Aesthetician and make-up artist to see if these services are right for you.
